

ASSURANCE STATEMENT

SGS statement on the assurance of Greenhouse Gas calculations for the “Project Study Report on the Pollution-Mitigation Benefits of Using the Utraphimuk Elevated Toll Road”

SCOPE

SGS was commissioned by myclimate to carry out an independent assurance of greenhouse gas calculations for the “Project Study Report on the Pollution-Mitigation Benefits of Using the Utraphimuk Elevated Toll Road”. Our assurance scope included verification of the monitoring data from the monitoring period from 1st of January 2023 to 31st of December 2023 provided in the monitoring document of September 2024 and based on the Monitoring program described in the Project Study Report on the Pollution-Mitigation Benefits of Using the Utraphimuk Elevated Toll Road (December 2024 Edition).

Emission reductions of 5,016 tons CO₂e in the time frame of 1st of January 2023 to 31st of December 2023 of the present project were approved by SGS during the ongoing verification.

INTENDED USERS OF THIS ASSURANCE STATEMENT

This Assurance Statement is provided with the intention of informing DMT's Stakeholders.

RESPONSIBILITIES

DMT, in cooperation with Burapa University is responsible for the monitoring data and their presentation. The “Don Muang Tollway Public Company Limited” created the report document and performed the monitoring in the first monitoring period.

SGS was neither involved in the preparation of the project design nor in the project monitoring, but simply conducted an independent review of the documents and data. SGS is solely responsible for the contents of this statement and the opinion presented therein.

METHODOLOGY

SGS has used elements of the SGS protocols for the assurance of greenhouse gas projects in order to verify baseline and project emissions. The assurance included control of the documentation and recordings, meetings with relevant employees and, where necessary, their validation with external institutions and/or stakeholders.

STATEMENT OF INDEPENDENCE AND COMPETENCE

As a leading company in the areas of inspection, testing, verification and certification, the SGS Group offers its services, including the certification of management systems and services, in more than 140 countries around the globe. Furthermore, the SGS Group offers auditing and training in the areas of quality, environment, social matters and ethics as well the assurance of environment, social and sustainability reports.

SGS confirms its independence from DMT. It is unbiased, and there are no conflicts of interest with the organisation, its subsidiaries or stakeholders. The assurance team was established for this task on the basis of its knowledge, experience and qualifications.

ASSURANCE/VERIFICATION OPINION

Under the mentioned reserves, the information and data provided offers a fair and balanced representation of the baseline and project emissions of the “Project Study Report on the Pollution-Mitigation Benefits of Using the Utraphimuk Elevated Toll Road”. Based on the above methods, no evidence has come to our attention which may have led us to conclude that the information and data provided by DMT was not in accordance with the study project report document.
